

A vibrant yellow poster for a vintage computer festival. The background is a collage of various vintage computer hardware, including desktop monitors, keyboards, and specialized equipment. The text is arranged in a central, bold, pixelated font. The main title 'WINTAGE COMPUTER FESTIVAL' is at the top, followed by 'ZUERICH' and the dates '19.11.2016 - 20.11.2016'. Below this is the venue 'Rote Fabrik' and 'Dock18'. At the bottom, 'Aktionshalle' is written. Several websites are listed: 'vintagebytes.ch', 'vofe.org', 'dock18.ch', and 'rotefabrik.ch'. The overall aesthetic is retro and nostalgic, celebrating the history of computing.
